

HAWAII EMPLOYMENT ANNOUNCEMENT

Planet Ocean Underwater Hotels Opens 2,700 Maritime Crew Positions Across 50 Underwater Hotels

Honolulu, Hawaii — Planet Ocean Underwater Hotels announces a Hawaii-based operational and training pathway designed to fill **2,700 total maritime crew positions** supporting the world's first movable **U.S. Patent Design underwater hotel platform**.

54 Crew Positions Per Underwater Hotel

Each Planet Ocean Underwater Hotel is staffed under a structured rotational and specialization model consisting of:

- **18-person men & women crew**
- **18-person all-women crew**
- **18-person all-men crew**

Total: 54 crew positions per Underwater Hotel

This structure supports continuous operations, duty rotation, training continuity, and specialty assignment—mirroring the discipline and reliability of proven maritime watchstanding and rotation systems.

50 Underwater Hotels Built Simultaneously

With **50 underwater hotels fabricated simultaneously** through employee-owned Louisiana fabrication and training logistics—**2,700 total crew positions** will be filled through coordinated recruitment and training.

Hawaii Training Pathway

Hawaii will serve as a key operational and training center—supporting:

- Crew onboarding and qualification
- Rotation scheduling and relief crew readiness
- Systems training and emergency procedure doctrine
- Leadership development for supervisors and watch commanders

Ex-USN Hawaii Veterans Welcome

Retired U.S. Navy veterans residing in Hawaii are encouraged to apply. The operational culture is built around:

- Rotational management
- Discipline and redundancy
- Safety doctrine
- Chain-of-command clarity
- Mission readiness

Employee-Owned Collaboration

This initiative links:

- **Hawaii Employee-Owned operational pathway**
with
- **Houma & Morgan City Louisiana Employee-Owned fabrication and training logistics management**

50 USA States Paired with 50 Nations

Planet Ocean Underwater Hotels expands under a global framework pairing **50 U.S. states with 50 nations**, supporting international cooperation, tourism, and marine stewardship.
